Reading	K-2	Wit & Wisdom Geodes by Great Minds PBC
Reading	K-6	Wit & Wisdom by Great Minds PBC
Writing	1-6	Wit & Wisdom by Great Minds PBC

ENGLISH/LANGUAGE ARTS/WRITING

Starting with the 2025-2026 school year, *Wit & Wisdom* has been purchased as a curriculum in grades K-6.

1. *Wit & Wisdom* exposes students to a wide range of literature, teaches comprehension strategies, and builds reading fluency.
2. Self-selected Reading instruction builds fluency in reading, provides for practicing reading, builds confidence as readers, and fosters reading enjoyment.
3. Word Study instruction teaches students to read and spell high frequency and vocabulary words correctly as well as focuses on the patterns necessary for decoding and spelling.
4. Writing instruction builds fluency in writing, provides for application of phonics, vocabulary, and grammar knowledge, as well as fosters confidence as a writer.

UFLI Foundations was implemented in Kindergarten during the 2024-2025 school year. After a year of implementation, grade levels K-3rd will utilize this program during the consecutive school years.

Wit and Wisdom follows a “Writing to Learn, Learning to Write” approach.

Remedial Programs Provided at FES

Response to Intervention Services (K-6)

Response To Intervention is a program that educators use to provide strategies to support students if they have areas of concern in academics or behavior. It is a tiered level program that is customized to each individual student to meet their needs. An RTI paraprofessional works with RTI students throughout the week on identified skills based on NWEA and classroom assessments. Frontier Elementary conducts RTI meetings with various stakeholders every Friday to discuss RTI students and look at their data to ensure appropriate services are being given. Adjustments to the individualized plans are conducted when needed during the meetings and always have parental consent.

Title 1 Services (K-3)

Frontier Elementary Title 1 services include instruction/intervention using the Reading Horizons program. In addition, students receive support and practice aligned to classroom instruction. The Title 1 teacher and classroom teachers collaborate to address students’ needs. Students receive direct services 4x per week. The selection process for students is ongoing and flexible grouping based on student data and needs.

Dyslexia Intervention (K-2)

Frontier Elementary uses Reading Horizons. The Reading Horizons program systematically and explicitly teaches phonics, leading to increased word recognition, fluency and comprehension. The program has proven effective for students with dyslexia, visual processing deficiencies and/or learning disabilities. Program elements requested include: Software, Professional Development and Evaluative Measures.
